

Fire Safety

The year 5 children recently had a visit from the Cheshire Fire Service.

They were part of a presentation about fire safety and learnt how to escape to safety in the event of a fire. The fire fighters answered the children's questions and showed them what to do in smokey environments. They went into a smoke tent to simulate this and practiced their newly acquired skills.

The children then experienced a real life emergency call where the fire fighters were called away. This showed the children just how important the job of the fire service is.
